

Spring 2011

NEW Marigold French Flame

Marigold French Flame (*Tagetes patula*) is a compact annual with a uniform, bushy habit.

The large flowers of this vigorous Marigold feature distinctive mahogany coloured petals edged with vibrant yellow.

Use Marigold French Flame to create formal borders, foreground accent colour or brighten pots and containers.

Plant seedlings in a full sun position to enjoy flowers 6-8 weeks after planting. Blooms will appear throughout the warmer months and with their cheery bright colours will attract beneficial pollinating insects to the garden.

NEW Marigold French Flame is available in Oasis B Code punnets at nurseries and garden centres from Spring 2011.
