

Spring 2010

NEW Tomato Pink Pearl™

New Tomato 'Pink Pearl'™ produces sweet cherry-sized fruit that turn from green to pink before maturing to a deep crimson-pink colour.

Tomato 'Pink Pearl'™ is an early maturing cultivar with an indeterminate habit that develops attractive trusses of tomatoes with firm, glossy skins and surrounding juicy flesh. As the plants

grow to over 1.8m in height a 2m stake should be supplied at time of planting. If planting multiple seedlings space 30-35cm apart in rows 1.5m apart.

These best performing, commercial-grade F1 hybrid tomatoes are available as advanced seedlings to the Australian home gardener for the very first time from Spring 2010.

Healthy eating for a healthy lifestyle is so easy with irresistibly sweet and juicy Tomato 'Pink Pearl'™; a good source of Vitamin C, fibre and the cancer-fighting antioxidant Lycopene. Tomato 'Pink Pearl'™ is a supporter of the National Breast Cancer Foundation.

Available in 125mm pots in the Oasis Home Harvest range from leading nurseries and garden centres.
