

New Release Autumn / Winter 2010

# Lettuce Multi-Cut

**Cut it once, cut it twice, cut it thrice!**

***Now you can harvest handfuls of fresh, healthy, crisp gourmet leaves from the same lettuce plant not just once, not just twice, but up to three times over!***

That's right! Multi-Cut Lettuces (*Lactuca sativa*) are true multiple cut, multi-leaved varieties with crisp, crinkly healthy and tasty leaves that may be harvested not just leaf-by-leaf, but as a full head of lettuce.

Oasis Horticulture alone has been successful in securing this fantastic and proven commercial-grade Multi-Cut Lettuce for release to the general gardening public for autumn/winter 2010. Multi-Cut Lettuce will be available in 6-packs of three green leaf and 3 red-leaved advanced seedlings from mid-March 2010.

New Release Autumn / Winter 2010

# Lettuce Multi-Cut

**Cut it once, cut it twice, cut it thrice!**

## How it works

Multi-Cut Lettuces will re-shoot after the first harvest when they are cut back by two thirds of their mature height of 20-25cm. These lettuces will then produce a second crop of leaves within 4-6 weeks. To ensure that these lettuces re-crop to their full potential avoid cutting back right down to the base.

Under ideal weather conditions and fertilising regimes Multi-Cut Lettuces may even re-shoot for a third and final time if cut back slightly above the level of the original cut. Outstanding value from just one little seedling!

There's no doubt that home gardeners will embrace the benefits of garden-fresh gourmet-style Multi-Cut Lettuce leaves.

Crisp, delicious and colourful, textured Multi-Cut Lettuces taste great – not too bitter, not too sweet – and just so easy to prepare. Simply use a sharp kitchen knife to cut your lettuce harvest, wash, rinse and gourmet salads are five minutes away. The leaves fall away from each other so readily; there's no pulling, no ripping and tearing involved.

## FAST FACTS:

**Position:** Full sun to part shade

**Harvest:** 4-6 weeks approx.  
after planting

**Height:** 20-25cm

**Spacing:** 20-25cm

**Available:** In Oasis Eziplanter  
6-packs from leading  
nurseries and plant  
retailers
