

Spring 2011

NEW Lettuce Mini Ice Cube

This handy pack contains six cute mini iceberg lettuces alive with sweet, crisp, refreshing flavour.

Each mini lettuce develops a head only about 10cm in diameter. Harvest the entire plant and you've got an instant salad for one! Alternatively, the small leaves of Lettuce Mini Ice Cube are ideal for sandwiches, salad mixes, garnishing and more.

Compact Mini Ice Cube lettuces are slow to bolt and perfect for small space gardens and containers.

Lettuce Mini Ice Cube is ideal for busy gardeners. Each seedling is available at an advanced size so it is easier to establish and ready to harvest sooner.

Plant Lettuce Mini Ice Cube seedlings 20-25cm apart in a sunny garden position and harvest leaves within just 4-6 weeks. Plant four seedlings into a 40cm pot for an attractive balcony or patio display. Apply a general purpose fertilizer at recommended rates and keep well watered in warm weather.

NEW Lettuce Mini Ice Cube is available in Oasis Eziplanter 6 packs.
