

Autumn 2012

NEW Pansy Spreading Lavender

Spreads up to 60cm!

The **Oasis Pansy Spreading Collection** is a selection of vigorous and easy-to-grow plants that grow up to 60cm across.

These luscious spreading pansies spill beautifully from hanging baskets, window boxes and containers. With their superior branching habit, lush green foliage and full flower coverage.

Oasis spreading pansies make an ideal for ground cover and are perfect for softening borders and retaining walls in full sun and part shade.

This season Oasis releases a new **Lavender** shade into the range that is equally adept at maintaining a compact height and superior branching habit throughout the growing season, and making a speedy recovery from rain or watering. Flowers appear 6-8 weeks after planting.

Pansy Spreading Lavender is available in the C Code seedling range from March 2012.
